Kerrville family man ‘Solar Bob’ brings solar power to the Texas Hill Country

Freedom Solar expands its presence to Kerrville

KERRVILLE, Texas— Robert S. Bradshaw, AKA “Solar Bob,” is expanding Austin-based Freedom Solar Power’s presence to the Texas Hill Country and bringing solar to his family’s hometown of Kerrville, Texas.

Bradshaw is an energy consultant at Freedom Solar, the leader in turnkey solar installations for commercial and residential markets in Texas.

His family has lived in Kerrville since 1990. Bradshaw moved to Austin in 2008 with his wife Claire who is from Sheffield, England. The couple has two sons, ages 4 and 7. Bradshaw has worked in the solar industry for five years.

Bradshaw says: “My dream has always been to bring the benefits of clean renewable solar energy back to Kerrville and the surrounding Texas Hill Country. With the current tax credits, federal grants and rebates, the time has never been better for the economics of solar for homes and businesses here.”

Freedom Solar is a SunPower Master Dealer, the only company with that distinction in Texas. SunPower solar panels offer a 25-year guaranteed warranty, are the most efficient available on the market today, and are unmatched in reliability with an expected useful life of more than 40 years.

"I am proud to be able to offer the highest rated American-made solar panels with the best warranty in the industry to the residents and businesses of the Hill Country. It's the right thing to do for our environment, the best investment in our future generations, and gives us the ability save money and stop renting power from utility companies. We can now own solar and save," Bradshaw says.

For a free consultation to find out if your home or business is a fit for solar, contact Solar Bob at 512-228-1222 or Robert@freedomsolarpower.com.
