SunPower by Freedom Solar announces Oncor 2017 Texas solar rebates

AUSTIN— Freedom Solar, the leader in turnkey solar installations in Texas, has announced the return of Oncor’s residential solar photovoltaic incentive program opening Feb. 7, 2017.

Texas residents in the Oncor service territory can receive up to \$8,500 dollars worth of rebates toward the cost of installing solar panels on their home. Only a limited number of Texas homeowners will qualify in time to take advantage of Oncor’s 2017 residential rebate program.

“Between the Oncor rebate, the 30 percent federal tax credit and our many zero down, low-Interest financing options, now is the time for homeowners who are considering solar to contact us and maximize their return on investment,” says Kyle Frazier, Freedom Solar’s director of sales.

Oncor’s service territory spans Texas and makes up nearly one-fourth of the state’s geographic area. The map below shows locations within the Oncor service area eligible for the solar rebate:

Freedom Solar Power can determine if homeowners are Oncor customers. Additionally, the company ID numbers 44372 or 17699, which correspond to the Oncor service area, may appear on your electrical meter or utility bill.
